

6 or 7 DAYS ISLAND HOPPING GALAPAGOS

Cruise boat owners want you to believe that the best way to see Galapagos is from a yacht. THEY ARE WRONG. You get to see far more when island hopping. Stroll the Santa Cruz boulevard at night, dine in a lovely restaurant street Quartier Latin style, see more sites on each island and spend much less money sleeping in nice local hotels. During breeding season of the Waved Albatross (April - November), an extra day may be added at additional costs for a day tour to the colony at Española. In fact, we offer the most economic island hopping.

Day 1	Flight: Quito - Galapagos, San Cristobal Visit the visitor center and a nice Sea Lion colony at the town beach. Galapagos Visitor Center at San Cristobal San Cristobal Sea Lion colony Afternoon ferry to Santa Cruz Hotel Santa Cruz
